SUMMARY

Flutter Developer with 2+ years of Flutter application development experience, including 8+ months of professional industry experience. Experienced in building, deploying, and maintaining Android and iOS applications using Flutter and Dart.

Skilled in Clean Architecture, BLoC, Firebase, REST APIs, WebSockets, local databases, and mobile application deployment. Passionate about continuous learning, problem solving, and building scalable applications.

EXPERIENCE

Flutter Developer

Dec 2025 – Present **Madariz Impex Pvt. Ltd.**

- Collaborated on the development and maintenance of Filumart, a global B2B e-commerce platform available on Android and iOS.
- Developed features including product listing, order management, authentication, profile management, and marketplace workflows.
- Integrated REST APIs, WebSockets, Firebase Cloud Messaging (FCM), and biometric authentication.
- Applied BLoC architecture and performance optimizations to improve scalability and responsiveness.
- Participated in Android releases through Google Play Console and iOS releases using App Store Connect and TestFlight.
- Worked closely with backend developers to implement new features, resolve issues, and support ongoing platform enhancements.

TECHNICAL SKILLS

- **Languages:** Dart, Basic C++, HTML, CSS
- **Frameworks:** Flutter
- **State Management:** BLoC, Provider, GetX, setState, ValueNotifier
- **Backend & Services:** Firebase, REST APIs, WebSockets, FCM
- **Databases:** Hive, SQLite, Cloud Firestore, SharedPreferences
- **Architecture:** Clean Architecture, SOLID Principles, MVVM Concepts
- **Deployment:** Google Play Console, App Store Connect, TestFlight
- **Tools:** Git, GitHub, Android Studio, VS Code, Xcode, Figma, Antigravity

PROJECTS

Invento – Inventory Management App

Web, App, GitHub

A lightweight offline-first inventory management application designed for small businesses to track products, purchases, sales, and revenue without relying on internet connectivity.

- Developed an offline-first inventory application with local image storage and category management.
- Used Hive database for local persistence and fast performance.
- Implemented state management using setState and ValueNotifier.
- Designed an efficient UI optimized for low-end devices.
- Published on Google Play Store for real-world inventory tracking use cases.

Skilnk – Multi-Platform Learning Platform Student App ,—, Tutor Web ,—, Tutor App ,—, GitHub

A complete e-learning ecosystem designed for students and tutors to manage courses, enrollments, communication, and payments across multiple platforms.

- Built and maintained a complete learning ecosystem consisting of Student App, Tutor App, Tutor Web Portal, and Admin Panel.
- Integrated Firebase Authentication, Firestore, and Razorpay payment gateway.
- Used Cloudinary for media storage and management.
- Implemented real-time chat functionality for student–tutor communication.
- Applied Clean Architecture principles to improve maintainability and scalability.
- Implemented BLoC-based state management for predictable application behavior.

ADDITIONAL PROJECTS

- **ToDo App (Firebase + Clean Architecture + BLoC)** GitHub
Task management application using Firebase Authentication and Clean Architecture.
- **Student Management App** setState ,—, Provider ,—, GetX
CRUD application demonstrating multiple Flutter state management approaches.
- **Camera App** GitHub
Camera application with flash control, camera switching, and image management features.
- **Prime Video Clone App** GitHub
Movie browsing application using REST APIs with search and filtering functionality.
- **Floating Custom Navbar Package** pub.dev
Published and maintained a reusable Flutter package on pub.dev providing customizable floating navigation experiences.

EDUCATION

- **Flutter Development Program – Brototype Kochi** *May 2024 – Aug 2025*
Certificate

Completed an intensive project-based learning program focused on Flutter, Firebase, Clean Architecture, state management, deployment workflows, and collaborative software development.
- **Higher Secondary Education – GMHSS Perinthalmanna** *2022 – 2024*
Commerce with Computer Applications.
